### 440-Volt Line Kills Man Instantly At Atlas Plywood Plant Monday

#### Trio In Plant Illegally

Touching a bare 440 volt line at the Atlas Plywood Corporation plant on Monday at about 6:30 p. m. brought instant death to William Bielski, 30, of Grayling.

Bielski accompanied by Leon Nelson and William Laurant, both also of Grayling, had entered the plant through a rear door which they stated they had found open. Statements to Prosecutor Charles Moore, Monday night, the two survivors said that they had entered the plant to catch some pigeons.

### Fred Bear Bags Grizzly

Word has been relayed here from the Yukon territory that Fred Bear, local archery equipment manufacturer, shot a two-year-old grizzly, probably the second bear of its species ever taken with bow and arrow by modern archers.

The message was relayed here to Mr. Bear's factory by one of the guides who left the hunting expedition to return to White Horse for another hunting party.

Art Young, the father of present-day archery, is believed to be the first modern archer to take a grizzly. He shot one in 1922 in the Yellowstone National Park area and it is now on display in a California museum.

According to Charles Kroll, company official, the guide who telephoned here said Bear shot the grizzly at a distance of 50 yards as it was digging for gophers. The arrow tore out two ribs, pierced the heart and lungs and the bear ran about 100 yards before dropping.

Bear is expected to continue his hunt until October 1. He is scheduled to return here Oct. 4.

### Kiwanis Club Notes

The Kiwanis Club met at the Grayling Sportsman's Club hall on Monday evening where they were guests of the Explorer Scout Post.

Post advisor Clarence Roberts tended the evening duties and Scouts of the Post served the delicious meal.

Following the meal, Advisor Roberts played a tape recording made for broadcasting purposes by the Kiwanis Club of Grayling of this spring's river clean up which the Post carried out.

The tape featured Charles Welsh, district education chief for the Department. The tape recording explained the duties of the Scouts and the importance of the river clean up.

To raise the standards of home life, to secure adequate laws for the protection and care of children and youth.

To bring into closer relation the home and school, that parents and teachers may cooperate intelligently in the training of the child.

To develop a better understanding and the general public such united efforts as will secure for every child the highest advantages in physical, mental, social and spiritual education.

The Executive Board attempts to work out a program of meetings and activities that will most nearly meet the demands of these goals they urge every interested member of the community to attend this first meeting, make the acquaintance of several teachers who are new on the faculty, this year, and participate in a general get-acquainted hour.

Scouts to hold convocation of order.

Camp Nayati, West of Clare, will be the scene of the Fall Convocation for the Tittabawassee Lodge of Order of Arrow, Boy Scout Honor Camping Society on September 28 and 29.

Local members and candidates will assemble on Friday evening at 8:00 for the Ordinal ceremonies when approximately forty candidates will be initiated. Ceremonies will be in charge of Sidney F. Main, Lodge Advisor, Midland, and Joseph Babcock, Assistant Lodge Advisor, Roscommon.

On Saturday, lodge members will devote their time to camp improvement projects under leadership of James E. Head, member of the Midland Camping Commission which operates Camp Nayati.

The encampment will conclude Saturday evening with a banquet. Boys are elected to membership in the Order of Arrow by fellow Troop or Explorer Post members on the basis of service, Scout spirit and camping ability.

Men and boys from all the seven counties of the council are expected to take part.

Clarence Roberts was initiated in the Ordinal Honors last May. Jim Perry is also an active member.

In Frederic the members are Benny Pratt, Leo Post and Bill Johnson.

Engagement Told

Mr. and Mrs. Arthur Donowitz of Grayling announce the engagement of their daughter, Arlene, to Robert H. Shaw of Lansing, Mich. A December wedding is planned.

### Retail Round Table Meeting Wednesday Night

An organizational meeting to set up this winter's sessions of the Retail Round Table will be held at the Grayling High School this Wednesday night at 7:30 p. m. It has been announced by Robert Hayes, Secretary-manager of the Crawford County Chamber of Commerce.

### Grayling Seeks All American City Award

Grayling, through the efforts of the Crawford County Chamber of Commerce, is seeking the All American City Award sponsored jointly by the National Municipal League and Look Magazine.

A telling of the Grayling story to the committee brought back quickly an official entry blank which Chamber secretary-manager Robert Hayes with the aid of several individuals has completed and entered in the contest.

The committee has already had a representative in Grayling checking on the accomplishments which the people of this community have made possible in the past two or three years. It was understood that the committee's representative was very favorably impressed with the new Grayling Mercy Hospital, the new St. Mary's Church and School, the Grayling Memorial Recreation Area, the new public school addition, the work going on at the Calvary Baptist Church, the plans for the Michelson Memorial Church addition, the renovation and addition to the Grayling First Methodist Church and the fine new civic center, the Legion Hall, bowling alleys and banquet room on US-27 and several others.

Already publicity has begun concerning Grayling. The Crawford County Herald Times of Gaylord in their last week's edition ran pictures of the new hospital, new St. Mary's Church and the new school gym along with a fine article. The article was only the first of a series. The Bay City Times in their last Sunday's edition also carried quite a lengthy story concerning Grayling and its civic virtues.

If Grayling is named as one of the All American cities, it will receive national-wide publicity.

### East Jordan Red Devils Here In Opener For Green And White

#### Recreation Area Scene Of Clash

The Grayling High Vikings under their new football coach, Arthur Thayer, tip the lid on the 1956 gridiron season this Friday night under the lights at the backfield Memorial Recreation Area. The East Jordan Red Devils, under their coach, Gayle Saxton, will be the green and white's opponents.

The kickoff is slated for 8 p. m. with the Grayling High Band performing prior to the game and at halftime. Bleacher seats for 500 are available this season at the field and with four home games in contrast to three last year, a larger attendance is expected.

Saxton's Red Devils who ended last year in fifth place in the Northern Class C Conference, should be a contender for higher ranking this year. Forty-six men came out for practice including four regulars and five lettermen from 1955.

Larry Woodcock, senior quarterback and Gareth Thompson, senior halfback will bolster the backfield while Ralph Shepherd and Ray Walker, also both seniors, will man the forward wall. The Red Devils opened their season last Friday by traveling to St. Ignace where they met defeat by a score of 19 to 7.

Coach Thayer has selected his starting lineup for the Vikings. Starting at ends will be Don Roberts and Bill Martin; tackles will be Larry LaGrow and Bill Holzman; guards, Wayne Ingalls, Bill Fairbrother and Joe White; center, Bill Kellogg or John Cox; quarterbacks, Dick Moore or Ron Kellogg; halfbacks, Aubrey Welch, Charles Garland or Russell Ballenger; fullback, Jim LaGrow or Ron Kellogg.

Others will probably see action at some time during the game are Elgin Durga, a transfer from Williamsburg, at an end; in the backfield, Don Leslie, Roy Lovely, Larry Yoder, Tim Perry and Russell Mudge; along the line, Mike Sheehy, Leo Rochette, Frank Luter, Jim Perry and Tom Hatley.

The Vikings will be resplendent in new green shirts trimmed in gold. Thayer said. No scrimmages are planned for this week and most of the work will be on defense with pass defense being especially stressed, he said.

With but nine lettermen returning and a small squad of 26 players, the new coach will be trying to rebuild the strength of the Viking football team. Grayling will field a good, strong starting team but replacements are slim. The line will average up around the 190 pound mark with a fast, shifty and snappy backfield. The Vikings could and should improve throughout the season as the new players mature under fire.

Manueloia, who rolled easily over Kalkaska last weekend, and Pellston appear to be strong contenders for the Conference head place with the Charlevoix Raylers and the Boyne City Ramblers, the usual football powers in the league, again threats. Matt Jacobson at Manelonia and Ray Brown at Pellston have loads of experienced men and large squads with which to work. East Jordan, Charlevoix, Gaylord, Harbor Springs and Grayling are faced with slim squads and lack of experience.

### Post Named As New President Of Chamber

Eric Post, treasurer for the past year of the Crawford County Chamber of Commerce and general chairman of the 7th Annual Michigan Canoe Marathon, was elected as the new President of the Chamber at a meeting at the Chamber's office last Wednesday evening.

Herbert Wolff was elected as vice-president and Dr. Ralph Hoffman as treasurer. Secretary-Manager Robert Hayes was appointed for another year also. All votes were unanimous by the board for the new officers.

Now serving on the board besides the newly elected officers are: Frank L. Bond, Russell Carlson, William Hines, William Joseph, Robert W. Strong and Olie Williams.

Plans were discussed for an annual meeting of the Chamber's general membership. The date of October 10 was tentatively set and efforts are being made to obtain a film which would depict the work of a Chamber of Commerce can do for a county. A speaker's service may also be obtained for the session.

City Treasurer Lillian Hill was selected to do an audit of the Chamber's books for the past year and to prepare a statistical statement of income and expenditures which will be handed out to all members attending the annual meeting. It is hoped to also prepare before that date a proposed budget showing expected income for the present year and proposed expenditures. Also the Secretary-Manager will prepare a statement to show the members what the office has accomplished in the past year.

**JACK PINE'S STUMP**

Relative to Conservation Department Deer Herd Control and the Special Season, it need not be related that the plans do not have the unqualified acceptance and support of all local residents. Far from it. Be that as it may, there is a plan afoot that would appeal to any and all who are opposed to the Special Season. It is simply a switch in the old idea. If you can't join 'em, so, anyone who doesn't want the Special Season, anyone who wants a few deer left in the County, should apply for a permit. You don't HAVE to use it, you know. And every one that isn't used, that is destroyed, that is ignored, is just one more taken out of circulation. The natives here that always get deer during the regular season should especially get one of the permits. These are pretty sure of not being used. It may not be the best way to save the herd locally, but at least it's one way.

JP.

The Post Office reports that Jack Pine has been inducted into the ranks of the "Stump Pullers." It is a change in the old idea. If you can't join 'em, so, anyone who doesn't want the Special Season, anyone who wants a few deer left in the County, should apply for a permit. You don't HAVE to use it, you know. And every one that isn't used, that is destroyed, that is ignored, is just one more taken out of circulation. The natives here that always get deer during the regular season should especially get one of the permits. These are pretty sure of not being used. It may not be the best way to save the herd locally, but at least it's one way.

JP.

When Jack Pine took last week's Stump in the Avalanche office, he was paid slightly more than he had previously been paid. He pointed out the error, but was told that he had been given a raise. So, thanks to the extra subscribers who made such generosity on the part of our Editor possible. And to MCL, thanks for the subscription. Oh, Jack Pine didn't think you cared.

Complete weeks ago a red setter and a black and white cocker ran a six point buck across US-27 just north of Wharf's. A car hit the deer, killing it, but the dogs got away. Then several days later, they were back in the same area and the black and white cocker dog, the best pet the most faithful found, became an uncontrollable killer once he gets the taste of a cocker. Spent several weeks in some summer resort, but stayed around the place for years, until this summer. He followed a strange dog away one day, and wasn't found for several weeks. He had been running deer and smelled like it. He came home two days later, he came home, but the day the resorters were ready to leave he jumped through an open window and took off. They got him back, but he was down below to Detroit. Did a run down. Sure he was seen each time he got away, close after a deer, in amongst a pack of other dogs.

JP.

The "Today In Business" column of the Detroit Free Press ran an interesting report published by the National Industrial Conference Board. It concerns the decline in purchasing power of the dollar, or put another way, what inflation has done to the American dollar. It appears that a wage earner receiving \$3,000 in 1939 would have to earn \$6,122 a year now to have equivalent buying power for his family. Inflation has taken out \$2,493 and taxes now eat up \$669. The average family used to be a man with a wife and two children. A \$5,000 a year family would need to gross \$10,593 now to match in buying power. Inflation's toll is \$4,131 and taxes take \$1,511. For a \$10,000 a year family, today's figure must be \$22,428 and for \$50,000, the current take must be \$159,030.

JP.

All this paints a pretty grim picture. Jack Pine can't help but point out that the man who was earning \$5,000 in 1939 (when it wasn't easy to use) is undoubtedly earning \$5,000 and much more now. He says that, there are millions, yes, millions more earning \$5,000, even \$10,000 now than in 1939. He takes today with inflation, rather than the 30's, when \$5,000 earned more than \$10,000 now. Millions earned nothing in 1939, but millions more are now earning, except the old and others who depend for their living on old age pensions and other sources of fixed income. They're the people who get it in the neck.

JP.

Why in the world I over got off onto that track, I'll never know. Oh, well, it's been a funny summer all the way around.

JACK PINE

Richard Sanders, son of Mr. and Mrs. Harry Sanders, left Monday to enter Michigan State U.

Mayor Albert E. Cobo

A spirited, but brief luncheon rally is to be staged at the Shopping Center Inn Tuesday noon, September 25th, on behalf of Detroit's Mayor, Albert E. Cobo.

The Women's Division of the Crawford County Republican Committee, sponsors of the pep-fest, announced through County Vice-Chairman Mary Peterson, that the purpose of the "Let's Go Cobo" rally is to afford Mayor Cobo the opportunity to present to Grayling and Crawford County people his program as the GOP candidate for Governor. The women made it clear that though they are spearheading the meeting, it is intended for all men and women voters regardless of party affiliation.

The Grayling appearance of Republican Candidate Cobo is a part of his "beat-the-bushes" campaign throughout the State searching out listeners for the program he will put in effect if elected Governor of the State. The night before his Grayling talk, Mayor Cobo will talk with groups from six counties meeting at John's Rustic at Houghton Lake. The following morning he will make Coffee Stop at Lake City one at Kalkaska and after his Grayling appearance will talk in Bellaire followed by a Tri-County Dinner meeting in Petoskey. He will wind up the day with an evening radio broadcast.

The local luncheon sponsors take this means to invite every one near Grayling to be present at the luncheon and to hear Mayor Cobo talk. There will be ample opportunity for questions from the voters. Advance luncheon tickets will be sold, but need not be purchased in advance. Cobo in his invitation to Grayling voters, said he was particularly interested in talking with the 95% of the population that are wage-earners, small farmers, small business men, professional men and their wives.

His platform is based on the best interests of these people and for that reason he is seeking their approval.

Following the meal, Advisor Roberts played a tape recording made for broadcasting purposes by the Kiwanis Club of Grayling of this spring's river clean up which the Post carried out.

## Bus Transportation Companies Look To State For Aid In Their Dilemma

Caught Between Rising Costs and a public that relies more and more on private transportation, local bus companies are turning to the state for relief measures. Something must be done, they say, if operations are to continue. Specifically requested are tax exemptions. Some companies claim they have exhausted all other means of economizing and are still operating at a loss.

A special state legislative committee, headed by Rep. James Goulette (R-Iron Mountain) recently conducted hearings on bus lines serving Michigan communities. Testimony indicated that numerous local companies did lose money during 1955.

To remain in business most local lines are now running with curtailed service and other drastic economies. "It looks like it will take a special tax exemption next year to save some of these companies," Goulette says.

The vicious circle began after World War II. A car hungry public turned to automobile transportation and bus line revenue fell off sharply from war year levels. To maintain a profitable operation, companies cut schedules to remove routes that were losing money. Result: fewer passengers. Continued cuts in service were necessary — revenue kept shrinking. Many lines are now operating on a limited basis they are nearing the point of economizing themselves out of existence.

Behind the apparent problem lies the big population movement to "suburbia." Metropolitan areas which once provided tight, compact units for bus line operation spilled over and sprawled in multiple directions during the post-war building boom.

Instead of a concentrated population serviced by a few main arterial routes, bus lines were faced with ever-spreading residential areas. There is no way to economically cope with the situation.

"Share-the-ride" car pools, born of necessity during the war, continued to be popular with workers and businessmen. Transportation companies couldn't provide a plan that would again bring fares jingling into the cash box.

On the cost side of the picture, equipment and equipment costs rose sharply. Taxes increased. Payroll, property, gasoline and weight taxes all added more to the cost load.

What is the answer? Municipal ownership advocates find few supporters. City governments do not favor competing with the present problems by undertaking to operate an unprofitable transportation company.

Taxpayers don't like to subsidize unprofitable operations for which, in many instances, they receive no service in return. Labor prefers to negotiate with private companies rather than any part of government.

Yet everyone admits that public transportation is in the public interest and should be continued as long as a need exists.

Most experts agree that tax relief is a stop-gap measure — not a solution. Bus companies feel they have already explored all other possible means which might affect a solution, all without success. The public, it seems, doesn't want to ride in buses enough to make their local operation profitable.

One prominent city manager whose city is affected by curtailed public transportation believes that present costly equipment should be traded for smaller, lighter vehicles capable of carrying approximately a dozen passengers.

This would be a partial return to the "jitney" type of transportation once offered in many cities. Under such a system, equipment maintenance and tax costs would be greatly reduced, he concludes. Meanwhile, local bus lines continue to stew in their own dilemma.

The explorers meeting was called to order September 10, 1956 by acting Crew Leader Gary Pippo.

We had election of officers, they are as follows:  
Explorer Leader, Charles Chapman.  
Senior Crew Leader, Billy Johnson.  
Event Director, Gary Pippo.  
Secretary-Treasurer, Paul Bradstreet.  
Main Crew Leader, Dave Midkiff.  
Assistant Crew Leader, Steven Olson.

Members, Charles Lodge, Bob Midkiff and Wayne Barber. Meeting was closed at 8:40. Paul Bradstreet, Reporter.

figures for the 1955-56 fiscal year are totaled up, says State Controller James W. Miller.

Several weeks will be needed to determine the amount to the exact penny. Miller admits that present estimates can vary half a million dollars either way from the exact total when it is learned.

State business was carried on in a big scale. Expenditures amounted to \$508,000,000 during the fiscal year ending June 30. However, income for the same period was \$535,400,000 — leaving the state with a tidy financial balance.

Biggest factor in providing surplus revenue is the business-receipt tax. It was written into the law books in 1953 after Michigan ran into the red four consecutive years.

At that time Governor Williams was urging a corporations profit tax. The Republican controlled legislature passed the business-receipts tax instead, which the governor allowed to become law with out his signature.

## Special Deer Season Permits Now Available

Deer hunters will be able to purchase licenses and obtain application forms for special season permits after September 15.

The applications, together with detailed information on special regulations and areas, will be available after that date from license agents, Conservation Department, selected headquarters and other selected field offices.

Hunters who wish to obtain a permit for the any-deer season should follow these instructions:

1. Purchase a regular \$3.50 deer license for the firearm season, November 15 - 30.

2. Fill out an application form for a permit, specifying the special area desired. Be sure to include the number of your deer license.

3. Mail the application form to the Conservation Department, Lansing 26, before the application deadline — October 10.

The application system will be the same for areas with a December 1 - 2 special season and for the Lake-Newaygo County area and Bois Blanc Island special seasons, November 15 - 30.

Each hunter may submit only one application. If there are more applications than permits in any area, a drawing will be held October 20 to determine distribution of permits.

Successful applicants will be sent a "credentials" card, which is the permit. Permits can be used only by the applicant and only in the area specified on the permit.

The unsuccessful applicant still will have a chance to obtain a permit for another area if quotas for all areas are not filled. The surplus permits for any area will be distributed on a first-come, first-served basis.

A hunting party may have all its applications treated as one application by submitting them in a single envelope with a request for such consideration.

## Preventive Medicine Strides Forward

There are, broadly speaking, two kinds of medicine. The one with which we, as patients, are familiar is that which seeks to correct a specific illness.

The other is preventive medicine. Its purpose, as the name implies, is to see to it that we don't become ill. And progress made in this all-important field in the last half century has been little short of miraculous.

Writing in the Journal of The American Medical Association, Dr. James Watt says: "While literally thousands of cases of malaria were seen each year in my home state when I was a child, today there are virtually none. In the diphtheria mortality rate of 1900 prevailed today, there would be over 60,000 deaths a year. In 1950 there were actually 410. According to rates of 1900, there would now be over 45,000 deaths from typhoid; actually in 1950 there were 114. Similar figures could be given for other major communicable diseases." Now the medical fraternity is battling the diseases and afflictions which have not yet been defeated.

It is worth noting that preventive medicine has suffered most in countries where medicine is either so-called or controlled by government. Writers on England's national health system have pointed to this. Doctors in such countries are often overworked. They lack the time for study, experiment, and research. And the Bureaucrats who make the rules and issue the orders have small interest in projects which may not produce results for long periods of time.

Progress in medicine — like all progress — flourishes in an atmosphere of freedom, and withers in an atmosphere of coercion.

## YOU ARE A—

## Alice-In-Taxland...

There is an Alice-In-Wonderland quality about our federal income tax laws, with their extremely high upper-bracket rates. U. S. News & World Report gives an example.

The magazine says: "A baseball player's angry gesture, during a ball game, may cost the Federal Government \$4,200 in income taxes. It also may bring the athlete a personal profit of \$4,200."

Does that sound absurd? Well, here's the true story. The world's highest-salaried ballplayer (\$100,000 a year) was fined \$5,000 by his club for a display of temper toward the fans. This is considered a business expense, for the reason that the fine must be paid if the player is to keep on practicing his profession. Thus, his taxable income is reduced by the \$5,000.

After deductions, the top tax rate on this player's income is 84 per cent. So the fine gives him a tax reduction of \$4,200, leaving him only \$800 out of pocket.

But that isn't all. Admirers of the player are reported to be making up a fund to pay the fine. U. S. News says: "If they give him \$5,000, that amount is not taxable at all. In that case, the ballplayer would stand an \$800 loss and a \$5000 gain, for a net profit of \$4,200."

Very few of us have any personal experience with either \$100,000 incomes or \$5,000 fines. But this factual illustration indicates just how confused, inequitable, and generally unsound our tax laws are. Like Topsy, they just grew — and grew into a crazy-quilt. That's why sentiment for a complete overhaul has been snow-balling.

September 21, 1933

The long-awaited designation of a location for Northern Michigan TB sanatorium was determined by the committee at their meeting in Lansing Tuesday afternoon, and Gaylord was the lucky city to win that prize. The new establishment of a TB hospital there of about 200 beds at a cost of about \$300,000. Other sites considered were Grayling, Petoskey, Alpena, West Branch and others. The fund for the building of the hospital has accrued from the state malt tax, the legislative bill for which provided that the fund be set aside for the construction of such a hospital. We understand that plans for the construction of the hospital will go forward immediately.

Ford initial costs are still low. Smart truck buyers know also that Ford on-the-job costs are low.

Take operating costs—no other trucks with comparable horsepower can beat Ford-pioneered Short Stroke engines for gas and economy. And with Ford, you get Short Stroke power in every truck—V-8 or Six.

Take maintenance costs—day-in, day-out dependability is a major reason why Ford trucks cost less. It means less downtime, lower repair costs, more work output.

And take durability—Ford trucks are built stronger to last longer. This accounts, too, for Ford's traditionally high resale value.

came true on August 30th when  
members of Sorenson's IGA bow-  
ling team made a cause trip down  
the AuSable. The group stopped  
at Rayburn Lodge enroute down  
river and enjoyed a potluck chic-  
ken dinner. At this time the team  
sponsors, who had been present,  
presented the members with their  
trophies for being 1955-56 cham-  
ps of the Friday night league. Fol-  
lowing dinner they continued on  
down river and enjoyed a good  
time the rest of the evening. The  
team members, Mrs. Sigurd Reetz,  
Mrs. William Moshier, Mrs. Les  
Hunter and Mrs. Wm. Sorenson  
says thanks again Clara for the

et is the election in November. N. P. Olson is expected home today from a trip through Wisconsin, where he has been combining business and pleasure.

Many of our citizens are preparing to go to the Manistee Convention to be held at Chautauque, October 12 - 16.

The cement work and repairs on the Presbyterian Church are practically complete, and the edifice ready for the resumption of the regular service of the society. About a hundred of our citizens went to Manistee Sunday to see the ball team get walloped to the tune of 4 - 1 in favor of Manistee. There is some kicking on the decision of the umpire before the 6th inning, up to which the score stood one to one.

F. H. Mills has purchased the interest of his brother in the meat market and will go it alone. The confinement of the work was telling on Alfred's health so that they thought it better for him to take something that would keep him outdoors for a while.

Mr. and Mrs. A. Peterson left yesterday for Chicago, and the west. They will leave Chicago Sunday evening. Mrs. Peterson going as a delegate to the National Convention of the D.S.S. at Council Bluffs from where she will return after their meeting. Mr. Peterson continues with the Danish Brotherhood in Fresno, Calif., and will visit the principal cities of that state and return sometime next month via the Southern Pacific route.

O. Palmer and G. L. Alexander were elected delegates to the state convention to be held in Detroit October 6th, and the following named gentlemen were elected as the County Committee for the ensuing two years: T. W. Hanson, Chairman, Grayling; John J. Neiderer, Secretary, Grayling; John

## Reveal Plans For Coming Marriage

Plans are being made for an October 6 marriage by Ann Kethut, 52 and George Gilbert Hatfield, 56, both of Grayling. The marriage will take place in Roseville and following a week's trip in the Upper Peninsula, the newlyweds will be at home in Grayling at 608 Elm Street.

Attending the couple at their marriage will be the bride's sister, Mrs. Lloyd Berry of Grayling, and the bride's brother, John Sader of Detroit.

## Local Pastor Installed

Many and beautiful were the arrangements of flowers in the Grayling Evangelical Lutheran Church Sunday morning when special services were held for the official installation of Rev. Harold Knudsen as pastor of the church.

The Rev. Peter Thomsen of Greenville, Vice President of the Michigan District, officiated. Rev. Knudsen was also installed as pastor of the Messiah Lutheran Church of Roscommon at earlier services the same day.

Rev. Knudsen was ordained into the ministry at the annual Synodical Convention on August 18th, and to mark these two occasions he was honored at a dinner given by the congregation of the Grayling church, which was held at Daneshof Hall following the services. Members of Messiah Lutheran Church of Roscommon were guests of the local congregation.

On behalf of the Grayling people, Mr. Wilhelm Raue welcomed the visiting pastor and his family and other guests, and also presented Rev. Knudsen with a gift from the local congregation. Mr. Lawrence Gulick, President of Messiah Lutheran Church, gave a short talk and also presented the pastor with a gift from their congregation. Rev. Knudsen then responded and thanked both groups for the gifts and honor bestowed upon him.

Rev. Thomsen and his wife spoke of their association and friendship with Rev. and Mrs. Knudsen dating back to the years at Grand View College in Des Moines, and in his talk Rev. Thomsen reminded the members and the pastor of their duty and cooperation toward one another.

Rev. Knudsen was born in Nysted, Nebraska, the son of Rev. and Mrs. Thorvald Knudsen, and was educated at Grand View College and Drake University in Des Moines, where he received his Bachelor's Degree in Education. He is also a graduate of the State School of Physical Education in Copenhagen, Denmark, and was a member of the faculty at Grand View College for about twenty-five years.

The Knudsen family are already well known in this community, as he has been filling the vacancies in the pulpits of his two churches for several months.

## Canoe Chairman Thanks Merchants, Women

Eric Post, general chairman of the Michigan Canoe Marathon committee today said he wished to thank several merchants and ladies who helped with the brief luncheon for the canoe racers. Although he had issued a general card of thanks earlier, Post said that he felt these people deserved a mention. Merchants who donated food for the luncheon were Mrs. Black & White, Groceries, Long's Market, Hunter's Dairy, Burrows Food Market, A. & P. and Sorenson's Quality foods. Ladies who aided in the serving were Mrs. Robert Bovee, Mrs. William Christenson, Mrs. Bruce Smith and Mrs. Dick DuBois. Harold Lee of Gaylord painted the numerals on the canoes.

## Hulls Visit Son Aboard Navy Ship

Mr. and Mrs. Joseph E. Hull of the Triangle Motel have returned from a visit with their son, Bob at Portsmouth, Va.

Bob having returned aboard the Battleship U. S. S. Iowa to the U. S. Naval Yards there after a good will trip to Denmark, England, Azores and Cuba.

While there the Hulls had the pleasure of taking a day's cruise aboard the Iowa with other parents and wives of the enlisted personnel.

The U. S. S. Iowa is one of the world's largest, fastest and most powerful battleships afloat. Conducted tours and demonstrations of the facilities plus a banquet and delicious dinner were enjoyed by the visitors.

At the present time the Iowa with its personnel are en route to Halifax, Nova Scotia, returning via New York some time in November.

While the Hulls were away Mrs. Hull's sister, Mrs. Lawrence Aikens of Jackson, Mich., managed the Motel with the help of Penny and Jack.
